

Granite Construction Co, Guam Awarded \$75 Million IDIQ Contract

(N40192-14-D-2830). For paving construction services at U.S. government shore-based facilities in Guam

Granite Construction Company Guam, Watsonville, California, is being awarded a maximum amount \$75,000,000 indefinite-delivery/indefinite-quantity contract for paving construction services at U.S. government shore-based facilities in Guam. The work to be performed provides for the construction, alteration, repair, and/or maintenance of asphalt concrete roads, streets, highways, alleys, parking areas, and their associated facility, such as but not limited to concrete sidewalks, curbs and gutters, guardrails, U-ditch, drainage pipe, traffic striping, pavement marking, and related work. Work will include cold milling, excavation, embankment grading or subbase and base course, compaction, density test, bituminous surface treatment, seal coating, asphalt concrete paving, adjustment of existing utilities and structures and other related work. Work will be performed in Guam, and is expected to be completed by September 2019. Fiscal 2014 operation and maintenance (Navy) contract funds in the amount of \$25,000 are obligated on this award and will expire at the end of the current fiscal year. This contract was competitively procured via the Navy Electronic Commerce Online website, with three proposals received. The Naval Facilities Engineering Command, Marianas, Guam, is the contracting activity (N40192-14-D-2830).
